

The Citizen's Portal - Sprint 2

The Goal Diggers

Title: Performing Voting during Election	Priority: High	Estimate: 2 Persons, 4 days
<p>As a registered citizen,</p> <p>I want to be able to cast my vote for a particular candidate,</p> <p>so that my voice is heard in the election.</p>		
<p>Acceptance Criteria</p> <ol style="list-style-type: none">1. The system should validate that the user is registered to vote and is eligible to participate in the relevant election. Only registered citizens should be allowed to log in.2. The voting process should be easy to understand and navigate for the user.3. The user should be able to securely access the voting feature through the government portal.4. The system displays relevant information about each candidate, such as their name, party affiliation. This information should be presented in a clear and organized manner.5. The system should allow users to cast their vote for a particular candidate. The vote should be recorded accurately and securely.6. The system should provide a confirmation message before the citizen casts a vote so that they do not accidentally vote for the wrong candidate.		

Title: Accessing important contacts and helplines	Priority: High	Estimate: 1 Person, 2 days
<p>As a citizen,</p> <p>I want to be able to access a list of important phone numbers and helplines,</p> <p>so that I can quickly get help when I need it.</p>		
<p>Acceptance Criteria</p> <ol style="list-style-type: none"> 1. The list of contacts should include a variety of important phone numbers and helplines, such as emergency services, healthcare providers, and government agencies. The information should be accurate and up-to-date. 2. The contact numbers and information should be organised in a way where it is easy to citizens to find contacts in case of emergencies. 3. The citizens should be able to search for relevant information using the search bar.
